# OFFICIAL DISPATCH

VIA AIR  
(Specify Air or Sea Pouch)

DISPATCH NO. ROMM-5879

200-124-39/3

**SECRET**  
CLASSIFICATION

TO : Chief of Base, Munich

DATE APR 8 1959

FROM : Chief, IOB

INFO: COS, Germany

SUBJECT { GENERAL - DTDORIC/QKACTIVE/Operational  
SPECIFIC - PECHORD Contacts with East-West Travellers

ACTION REQUIRED: Please pass the following to ☐ ☐ as the agreed  
☐ ☐ BGA TRESS position.

1. The expansion of travel to and from the USSR provides a means for TPLINGO to obtain important direct information on radio listening in the USSR as well as current background information of value to broadcasters and to BGCALLUS. The contacts QKACTIVE makes for this purpose are of three general types:

- a. Briefing of western travellers en route to the USSR;
- b. Interviewing western travellers returning from the USSR;  
and
- c. Observing and on occasion talking with Soviet travellers in the West.

2. Internal QKACTIVE coordination is effected by the appointment of ☐ in PECHORD as a central point for such activities and the appointment in PBAFFIRM of ☐ for the same purpose. As for KUBARK coordination, experience has demonstrated that it is not always necessary, particularly in the case of (a) and (b) contacts described in para. 1 above, since these are a normal procedure for such an unofficial organization. Travellers who have other KUBARK missions are expected to treat QKACTIVE requests in the same manner as other western travellers who may or may not wish to discuss their trips with a known anti-Soviet organization. In PEPRIME, PBAFFIRM keeps KUBARK informed of its (a) and (b) contacts, but before approaching Soviet travellers, as in (c) above, PBAFFIRM clears the individual contact with HQ.

DECLASSIFIED AND RELEASED BY

3. FBCHORD's East-West contacts would seem to require prior MCB coordination only in those instances where operations might conceivably conflict with other activities carried out through emigre groups in Europe, again the (c) type of contact. It is requested therefore that [ ] of FBCHORD be instructed to use the [ ] MCB channel to coordinate planned QKACTIVE contacts, whether by employees or emigres under QKACTIVE direction, with travellers from the Soviet Union. The purpose of such coordination will be to avoid direct conflict with operations known to MCB and will not require HQ coordination through MCB unless conflicting interests develop which cannot be resolved in the field.
